

Hand Demagnetizer HD

Demagnetization

Walmag hand demagnetizers series HD feature a lightweight plastic body with a large handle with push button for easy manipulation.

They are typically used in situations where the component is too big or difficult to get access to.

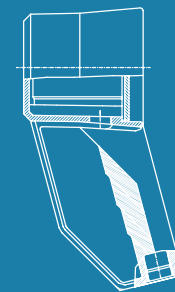

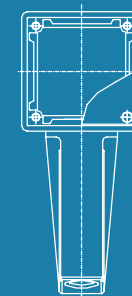

CONSTRUCTION

- + Sturdy plastic body with large handle
- + Incorporated push button
- + Protection against overheating
- + Field penetration up to 30 mm
- + Duty cycle: 20%
- + Power cord 3 m with plug
- + Input voltage: 230V/50-60Hz

APPLICATION

- + Demagnetizing of small to large components
- + Maximum operating time: 10 minutes

Model	Active area	Supply [VA]	Demagnetising field	Depth of the magnetic field	Weight [kg]
HD-1	105 x 75 mm	300	max.2000 A/m	max. 20 mm	1,9
HD-2	105 x 95 mm	350	max.2000 A/m	max. 30 mm	2,2
